Little Green, Green, Chisago, Sunrise, North and South Lindstrom, North and South Center

REPORT

This is the best month of the year for Bass fishing. Schools of Bass on Chisago Lake and South Lindstrom Lakes along the weed line and points using Jig Worms, Texas Rig, Carolina Rig and throwing Crank Bait. Find them in 6-14 ft of water. Catch & Release only for Bass but is a lot of fun catching them.

Sunnies and Crappies are being caught on all area lakes. Bigger Sunnies in 6-10 feet of water, Crappies suspended down 6-8 feet in 15-25 feet of water.

Great fishing for Northern on South Center, Green and Chisago Lakes. Best to use Sucker Minnow with bobber fishing.

Walleyes are tougher to catch but not impossible. Catching best with bobber fishing. Walleye fishing will get better in the next couple of weeks.

Sunrise Lake is good for big Pike.
